### DETAILED ACTION

1. This Office Action is in response to the Decision on Appeal of the Board of Patent Appeals and Interferences, issued December 3, 2009. Claims 11-13 are pending in this case.

### EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with Ryan Heavener, reg.no. 61,512 on or about May 11, 2010.

4. The claims are hereby amended as follows –

11. (currently amended): **A** method of printing postal indicia on a plurality of mail items, said postal indicia including postage data and an authentication code, including the steps of:  
storing a secret key;  
determining, by a clock means, a period of time in which postal indicia are to be printed on a plurality of mail items;  
storing, by a register, a postage value relating to postage charges dispensed in said period of time;  
providing postage data including said postage value;  
generating, by an electronic control means, a modified key relating specifically to a mail item by utilizing said secret key and said postage data;

generating, by the electronic control means, an authentication code by utilizing said modified key and said postage data; and  
printing said postage data and said authentication code as a postal indicia on said mail item.

**12.** (currently amended): Postage meter apparatus for printing postal indicia on a plurality of mail items, said postal indicia including postage data and an authentication code, including:

clock means determining ~~operative to determine~~ a period of time in which postal indicia are to be printed on a plurality of mail items;

a register storing a postage value relating to postage charges dispensed in said period of time;

memory means storing a secret key;

input means inputting ~~operable to input~~ item data relating to a mail item to said an electronic control means;

the electronic control means ~~is configured to~~ generating a modified key relating specifically to said mail item by utilizing said secret key and postage data including said item data and said postage value, and

generating an authentication code by utilizing said modified key and said postage data.

**13.** (currently amended): Postage meter apparatus as claimed in claim **12**, including:

a further register ~~for storing~~ which stores a value of credit;  
and wherein said postage data includes said value of credit.

### *Reasons for Allowance*

5. Claims 11-13 are allowed.
6. The following is the Examiner's statement of reasons for allowance:

7. Regarding the claimed terms, Applicant is reminded that a "general term must be understood in the context in which the inventor presents it." *In re Glaug* 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). Therefore the Examiner must interpret the claimed terms as found on pages 1-82 of the Specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings . . . the inventor's lexicography must prevail . . . ." *Id.* Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.

8. The closest prior art of record, Kara (US 6,249,777) and Windel (US 5,671,146) discloses as previously discussed.

9. However, Kara and Windel, do not disclose, at least, generating a modified key relating specifically to a mail item using a secret key and generated an authentication code with the modified key and printed the authentication code on a mail item (see BPAI decision, pages 8-9), nor is such a feature likely to be found in a reasonable number of references.

10. For these reasons, independent claims 11 and 12 and dependent claim 13 are allowed.

11. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CRISTINA SHERR whose telephone number is (571)272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.

13. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Calvin L. Hewitt, II can be reached on (571)272-6709. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

14. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
